Dover, Delaware

Re: Permission to operate a
landfill near Tybouts Corner
on Rt. 71

Dear Mr. Wilburn:

With reference to our earlier correspondence concerning referenced project, we are submitting a formal application for the operation of a sanitary landfill on the property owned by William C. Ward and Elizabeth O. Ward located on Delaware Route 71 between U. S. 13 and Delaware Route 7.

To support our application we are including the following information:

1. Plan of operations
2. Topographic map showing the present and proposed grades, location of borings and limits of proposed site.
3. Construction plan. Indicating the location of the roads, fences, deposit areas and facilities to be erected.
4. Soils boring data. Indicating detail information obtained from field borings.
5. Soils laboratory report showing results of permeability tests and soils classification.
6. Soils profiles, indicating the general elevation of ground water table and the different soil strata.

-2-

7. General property plan, indicating the general location of the proposed site with respect to surrounding properties.
8. General area plan, indicating the location of the proposed site with respect to buildings within one mile radius from the center of the Ward properties.
9. Proposed contract and specifications for operation of the sanitary landfill.
10. New Castle County Ordinance 67-11 containing the Regulations for Garbage and Rubbish Collection and Disposal as adopted.

We hope that the above information will meet with your approval. If you need any additional information, please call us.

Sincerely yours,

DEPARTMENT OF PUBLIC WORKS
